

# Navy Year 2000 Tracking System (NY2KTS)

## Software Release Notes

### Version 2.3.02

### 30 March 1999

#### Software Change Description:

SCR #: Description of Change

---

99-32 Changed the Systems Information Window (Y2K01U1) so that it displays the Number of Tests Required for each System undergoing application testing.. This field is READ-ONLY by all users and only the Data Administrator can change this field. All requested for data changes to this field must be directed in writing to the Department of the Navy, Chief Information Officer (DoN CIO). The number of tests required will either be blank, 0, 1, or 2. An image of the window appears below:

The screenshot shows a web-based application window titled "Y2K\_DATA\_WINDOW". The main content area is titled "Year 2000 Information" in large red and blue text. Below this title is a tabbed interface with tabs for "System", "POC", "Sponsor", "SubSys", "Interface", and "Phase". The "System" tab is active, showing a form with the following fields:
